

Ponzio  
van  
nel  
i

È una sensazione  
che fa sentire vivi,  
veri, unici.

Avvicinarsi a lui  
è come percepire  
che tutto è possibile.

Ti guarda, lo sfiori,  
si muove, poi fermo  
... sussurra:

“Bentornati a casa”.

## SCOPRI LE NOVITÀ

L'arma vincente per ottenere grandi risultati è essere precursori dei tempi: i portoncini Bugnall ne sono la prova. Precursore ed innovatore da sempre del mercato dei pannelli in alluminio, il marchio Bugnall apre le porte alla nuova stagione con le esclusive novità dei portoncini che rendono il brand importante riferimento di stile e tendenze.

## DISCOVER THE NEWS

The winning weapon to get great results is to be precursors of the times: Bugnall doors are the proof. Always precursor and innovator of aluminum panels market, the brand Bugnall opens the doors to the new season with unique innovations of the doors that make the brand more and more a reference of style and trends.

## IL NOSTRO PASSATO È LA VERA GARANZIA DEL VOSTRO PRESENTE

“Nomina sunt consequentia rerum” - dicevano i latini. E Bugnall conferma la regola. Bugnall è infatti “Il nome” dei portoncini che da oltre 20 anni continuano a scrivere la storia dei pannelli in alluminio bugnati. Una storia di garanzia ed affidabilità che negli anni ‘90 ha definito e connotato il brand come “precursore” di un nuovo concetto di “apertura”. I portoncini d’ingresso Bugnall, infatti, sono frutto della ricerca continua nell’innovazione che migliora la vita. Uno stile di vita “perfettibile” che parte da una filosofia di lavoro “impeccabile”: quella che contraddistingue la Ponzio, l’azienda produttrice leader nella lavorazione dell’alluminio. Passione, esperienza e capacità produttiva sono gli ingredienti della ricetta perfetta della Ponzio che con il marchio Bugnall rinnova lo sguardo verso il futuro, a garanzia di un presente di successi.

## OUR PAST IS THE REAL WARRANTY OF YOUR PRESENT

“Nomina sunt consequentia rerum”- said the Latins, indicating that the names reveal the essence of things. And Bugnall proves the rule. Bugnall, in fact, is “name” of the aluminium doors which for over 20 years has been writing the history of the shaped aluminum panels. A history of reliability and trustworthiness in the 90s that has defined and characterized the brand as a “precursor” of a new concept of “openness”. The entry doors Bugnall are the result of continuous research in the name of innovation that improves life. A “perfectible” lifestyle that starts from a “flawless” philosophy of work: the same that distinguishes Ponzio, the leading manufacturer in aluminum processing. Passion, experience and production capacity are the ingredients of the perfect recipe of Ponzio that, under the brand Bugnall, renews the look towards the future, confident of an extraordinary guarantee, an ongoing success.

## I PORTONCINI “LAVORATI” IN CASA: DALLA PROGETTAZIONE ALLA PRODUZIONE

**Made in Ponzio:** è questo il grande valore dei portoncini d'ingresso Bugnall, progettati e prodotti direttamente a “casa” Ponzio.

Nel 1941, da un'intuizione di Giuseppe Ponzio, nasce l'azienda omonima specializzata nel trattamento superficiale dell'alluminio. In questi oltre 70 anni di attività, Ponzio si è conquistata a ragione il titolo di leader assoluta nella progettazione, produzione e innovazione dei sistemi in alluminio per l'architettura con una filosofia aziendale orientata alla ricerca tecnologica, all'innovazione e alla fornitura del servizio, oltre che del prodotto. I portoncini Bugnall sono frutto di esperienza e capacità ma anche di studio continuo, oltre che di lungimiranti piani di investimento. È nato così lo stabilimento di produzione Bugnall, fiore all'occhiello del quartier generale Ponzio: oltre 60mila metri quadrati coperti nella zona industriale di Pineto.

## THE “HOMEMADE” DOORS: FROM DESIGN TO MANUFACTURING

**Made in Ponzio:** this is the great value of the entry Bugnall doors, directly designed and produced at Ponzio “home”.

In 1941 Giuseppe Ponzio founded the eponymous company specializing in the surface treatment of aluminum. In these 70 years of activity, Ponzio has earned the title of the absolute leader in the design, manufacture and innovation of aluminum systems for architecture with a corporate philosophy oriented to technological research, innovation and service, over that of the product. The doors Bugnall are the result of experience and ability but also of ongoing study, as well as forward-looking investment plans. So it is born the factory of Bugnall in the Ponzio headquarters: over 60 thousand square meters covered in the industrial area of Pineto.

## AUTENTICITÀ

L'autenticità è un valore. E Bugnall crede, sostiene e pratica fortemente questo valore nei portoncini d'ingresso che realizza. Il lavoro manuale, la precisione, l'unicità di ogni pezzo prodotto sono parti integranti della tradizione dell'azienda Ponzio e tutto ciò conferisce un valore aggiunto al pannello Bugnall, assicurando un plus in termini di risultato finale. Dietro ogni porta d'ingresso ci sono esperienza, tradizione e storia di qualità: in una parola, autenticità. E l'autenticità del portoncino Bugnall è certificata su ogni imballo. Struttura e tecnologia, processi di lavorazione e materiali sono stati testati da prestigiosi Istituti nazionali che ne hanno attestato il valore garantendo prestazioni e caratteristiche. A completare la filosofia Ponzio, ci sono il forte legame con il territorio e il rispetto dell'ambiente, tanto da essere stata tra le prime aziende in Italia ad avere la certificazione "Emas ISO 14001".

## AUTHENTICITY

Authenticity is a value. Bugnall believe and strongly practice this value in the entry doors that realizes. Manual work, precision and the uniqueness of each piece are integral parts of the tradition of Ponzio and everything adds value to the Bugnall panels, ensuring a plus in terms of the end result. Behind every door there are experience, tradition and history of quality: in a word, authenticity. And the authenticity of the Bugnall door is certified on all packaging. Structure and technology, manufacturing processes and materials have been tested by prestigious national institutes that have certificate guaranteeing the value and performance characteristics. To complete Ponzio philosophy, there are the strong bond with the land and the environment, so that it has been among the first companies in Italy to have the certification "Emas ISO 14001".

## PORTONCINI NATURALMENTE ECOLOGICI

Leggerezza e design danno vita ad una perfetta sintonia, quella che nasce dall'incontro tra passato e futuro, esperienza e know-how, MDF e PIR.: le due linee di prodotto a marchio Bugnall. La leggerezza del PIR., il più utilizzato nelle realizzazioni edili per la sua facilità di utilizzo ed estrema resistenza, si sposa con l'Anima Flessibile e le nuove frontiere del poliuretano, il POL. I portoncini Bugnall sono tutti modelli depositati, unici e originali. La tecnologia potenzia le prestazioni. Le prestazioni garantiscono sicurezza. Ponzio lo certifica.

L'importanza del legame con il territorio e il rispetto dell'ambiente fanno parte della filosofia Ponzio, tanto da essere tra le prime aziende in Italia ad essere stata certificata "Emas ISO 14001".

## NATURALLY ECOLOGICAL DOORS

Lightness and design create a perfect harmony, the same that born from the encounter between past and future, experience and know-how, MDF and PIR: the two product lines branded Bugnall. The lightness of the PIR, the most used in construction projects for its ease of use and extreme resistance, is combined with the Flexible Inner and the new frontiers of the polyurethane, the POL.

The Bugnall doors are all registered models, unique and original. The technology enhances performance. The performance guarantee safety. Ponzio certifies it, realizing every day products that contain the best also in ecological terms. Ponzio also means love for the land and the environment, as demonstrated by the fact that this is actually one of the first companies in Italy to have the certification "Emas ISO 14001".

# H.I.ANIMA FLESSIBILE: PANNELLI DA GRANDI PERFORMANCE

Portoncini d'ingresso che non temono l'acqua e il vento, che isolano dal caldo, dal freddo e dai rumori. Sicurezza, clima, silenzio: il comfort è un valore che Bugnall mette al primo posto. Da oggi, inoltre, con la nuova tecnologia e l'inserimento dell'anima flessibile, i pannelli in alluminio Bugnall limitano il fenomeno della dilatazione termica, derivante dall'irraggiamento solare.

## H.I. FLEXIBLE CORE: HIGH PERFORMING PANELS

Wind and waterproof entry doors, heat, cold and noises insulating. Safety, comfort, peace are Bugnall's first values. Today Bugnall aluminum panels, with their new technology and flexible core, reduce the effects of the thermal expansion due to sunlight.

GAMMA VETRI  
GLASSES RANGE

LINEA TIFFANY

Il vetro è costituito da una lastra esterna da 4 mm basso emissiva magnetronica temperata, una camera d'aria di 12 - 15 - 18 mm creata mediante un distanziatore Super Spacer, una lastra interna stratificata 6/7 - 10/11. All'interno del pacchetto così costituito viene posta una lastra Tiffany interamente realizzata a mano con vetri colorati legati al piombo che danno carattere di esclusività al prodotto finale. Piccole imperfezioni della lastra Tiffany ne attestano la lavorazione manuale.

TIFFANY LINE

Its glass is composed of a 4mm low emissive magnetron temperate external pane, a 12-15-18 mm insulating double glass made through a Super Spacer, an internal Tiffany pane, entirely hand-made using colored lead up glasses, is carefully inserted making an exclusive final product. The little imperfections of the Tiffany pane certify their hand-made production process.

LINEA VETROFUSIONE

Il vetro è costituito da una lastra esterna da 6 mm realizzata in fusione di elementi neutri e/o colorati, una camera d'aria di 9 - 12 - 18 mm creata mediante un distanziatore Super Spacer è una lastra interna basso emissiva 6/9 - 8/9. Le lastre in vetrofusione vengono realizzate singolarmente per garantire l'esclusività e l'unicità del prodotto finale. Piccole imperfezioni sono garanzia di un prodotto realizzato a mano.

GLASS FUSING LINE

Its glass is made of a 6mm external pane made by fusion of neutral and/or colored pieces, a 9-12-18 mm insulating double glass made through a Super Spacer, an internal 6/9 - 8/9 mm low emissive pane. Each fused pane is made one by one making each product a unique and exclusive masterpiece. The little imperfections of the Tiffany pane certify their hand-made production process.

## NUOVA CORNICE FERMAVETRO: LA PERFEZIONE DELLE BUGNE È PER NOI UN DOVERE. PER VOI UN PIACERE

Due in uno: bello alla vista e coplanare al tatto. Si sposano alla perfezione i valori tecnici ed estetici della nuova cornice fermavetro. Un nuovo plus di casa Bugnall, la cornice in estruso di alluminio interna ed esterna, perfettamente integrata al pannello. Le due sezioni della stessa vengono assemblate sul pannello tramite un sistema di aggancio in acciaio inox a contrasto. Le guarnizioni garantiscono la tenuta sia sul vetro che sul pannello. Sicurezza e facilità di montaggio le immediate conseguenze a vantaggio del pannello Bugnall. Questo importantissimo upgrade tecnico aiuta la cornice a riprendere perfettamente, nella forma e nella dimensione, la bugna storica dei pannelli ciechi. La cornice si integra al pannello sul quale viene effettuato il ribassamento e l'effetto finale è gradevole nella coplanarità della cornice rispetto al pannello.

## NEW GLAZING BEAD FRAME: THE PERFECTION OF THE SHAPES IS A DUTY FOR US, A PLEASURE FOR YOU

Two in one: beautiful to the eye and coplanar to the touch. Aesthetic and technical values of the new glazing bead frame perfectly combine together. The internal and external aluminum extruded frame are perfectly integrated with its panel: a new "plus" of Bugnall. Two frame sections are assembled on the panel through a stainless steel coupling system. The gaskets guarantee the grip both on the glass and on the panel. So Bugnall becomes safer and easier to install. This important technical upgrade make the glazing bead frame to be similar in the dimension and in the form to the historical shape of the blinded panels. A pleasant coplanarity between the frame and the door panel that are appropriately integrated each other.

## APRI ALLA STORIA DEI PORTONCINI D'INGRESSO: BUGNALL TI ASPETTA.

Bugnall è lo storico brand di portoncini d'ingresso in alluminio bugnato che apre al futuro con il nuovo programma "Ponzio Pannelli".

Ricercato nelle linee prominenti che si ispirano alla tradizione, il portoncino Bugnall presenta le novità che sono la sintesi di ricerca continua e tecnologia avanzata.

RAL 1013 - RAL 6005 - RAL 8017 - RAL 9001 - RAL 9010.

Rif. cartella colori Ponzio.

Prezzo colori base

### Colori Fuori Standard

Tutti i colori verniciati o RAL.

Rif. cartella colori Ponzio.

Prezzo vern. particolare

### Colori Campione

Si richiede l'invio di 2 Kg di polvere in **c/to omaggio** per ogni pannello, insieme ad un lamierino in alluminio come riferimento colore.

In assenza del campione colore non garantiamo eventuali differenze.

Prezzo vern. particolare

### Verniciato Legno

Tutti i colori rif. cartella Uberall Ponzio.

Grazie alla preziosa collaborazione con aziende leader del settore, siamo in grado di fornire un'ampia gamma di colori legno in pronta consegna o a richiesta (contattare i ns. uffici per ricevere la lista delle tinte legno disponibili).

Prezzo vern. legno

### Renolit

Rivestimento con pellicola Renolit: Rovere Gold (ciliegio) 2178001 - Mogano 2097013 - Noce 3149008 - Noce scuro 2178005 - Avorio 137905 - Blu 515005 - Verde 612505 - Bianco 915205 - Castagno noce 2178007 - Black Cherry 3202001 - Rosso 308105 - Rovere scuro 2052089 - Mogano 2065021. Altri colori su richiesta.

Prezzo bicol-renolit - Ox

### Anodizzati

Argento - bronzo - bronzo scuro - elettrocolore chiaro - elettrocolore - nero.

Rif. cartella colori Ponzio.

Prezzo bicol-renolit - Ox

### Bicolore Verniciati - Renolit - Anodizzati

Un lato colore standard/ fuori standard / colori a campione / Renolit / anodizzato; lato opposto colore standard / fuori standard / colori a campione / Renolit / anodizzato.

Prezzo bicol-renolit - Ox

### Verniciato Legno

Un lato colore standard/ fuori standard / colori a campione / Renolit / anodizzato / verniciato legno; lato opposto colore standard / fuori standard / colori a campione / Renolit / anodizzato / verniciato legno.

Prezzo vern. legno

## Listino prezzi nuovi pannelli

Dimensioni standard cm. 90x215 \*(per spessore mm. 7 e 15 dim. standard cm. 95x215)

|              | NB: pannello con dimensioni oltre cm 98 x 220 disponibile solo versioni in MDF.                                                                                  |                                      |                               |

## PANNELLI INTERNI IN LEGNO

Al fine di semplificare la realizzazione di portoncini in legno/alluminio o di porte blindate con l'inserimento di un pannello interno riportante lo stesso motivo del pannello esterno in alluminio, abbiamo previsto:

Esempio finitura: mogano

Esempio finitura: noce

Esempio finitura: noce chiaro

Esempio finitura: laccato avorio

Modem

T.O.R. - Titanium Over Resistant

Consiste nell'applicare uno strato protettivo al titanio, traverso nebulizzazione di ioni. Questa protezione permette all'ottone di evitare qualsiasi processo di OSSIDAZIONE. Infatti, il rivestimento T.O.R. GARANTISCE PER 30 ANNI la brillantezza della superficie, è contro l'usura, gli attacchi atmosferici e i reagenti chimici.

OROPLUS - Trattamento di protezione GARANTITO 10 ANNI

La garanzia assoluta d'impiego di materiali di primissima qualità e l'eccellenza di moderni sistemi di produzione e sofisticati processi di trattamento delle superfici, consentono di garantire per 10 anni la finitura OROPLUS dei nostri prodotti.

ROCOCÒ - Verniciatura a forno by Ponzio

Consiste nell'applicare prima un primer alla maniglia in ottone, poi il manufatto viene seccato in forno ad una temperatura di 180°. Dopo il raffreddamento si procede con una meticolosa levigatura sulle superfici; questo processo garantisce un'eccellente morbidezza tattile al prodotto. Successivamente le maniglie vengono DEPOLVERATE e RIFINITE con due mani di vernice colorata e cotte in forno, sempre a 180°. Tutto questo lunghissimo procedimento garantisce una resistenza all'usura pari a quella della vernice metallizzata delle autovetture e, al tempo stesso, valorizza i dettagli e il disegno ROCOCÒ del maniglione/battente.
